Disclosure to Promote the Right To Information

Whereas the Parliament of India has set out to provide a practical regime of right to information for citizens to secure access to information under the control of public authorities, in order to promote transparency and accountability in the working of every public authority, and whereas the attached publication of the Bureau of Indian Standards is of particular interest to the public, particularly disadvantaged communities and those engaged in the pursuit of education and knowledge, the attached public safety standard is made available to promote the timely dissemination of this information in an accurate manner to the public.

“जानने का अधिकार, जीने का अधिकार”

Mazdoor Kisan Shakti Sangathan

“The Right to Information, The Right to Live”

“पुराने को छोड़ नये के तरफ”

Jawaharlal Nehru

“Step Out From the Old to the New”

IS 5251 (1984): Table Clamps [PGD 2: Machine Tool Elements and Holding Devices]

“ज्ञान से एक नये भारत का निर्माण”

Satyanarayan Gangaram Pitroda

*Indian Standard***SPECIFICATION FOR TABLE CLAMPS***(First Revision)*

1. Scope — Specifies the dimensions and material for table clamps used in holding work pieces in place when they are being machined.

2. Dimensions — Shall be as given in Table 1.

3. Designation — A table clamp having $d = 18$ mm and $h = 40$ mm shall be designated as:

Table Clamp 18 × 40 IS : 5251

4. Material — Steel suitably hardened and tempered to a tensile strength of 750 to 850 N/mm².

5. Finish — The table clamps shall be free from cracks, burrs, pits and other defects. These shall also be free from sharp corners.

6. Preservation and Packing

6.1 A suitable anti-corrosive surface treatment shall be given to table clamps.

6.2 The table clamps shall be packed in accordance with best trade practice.

7. Marking

7.1 The table clamps shall be marked at an appropriate place with designation, manufacturer's name or trade-mark.

7.2 ISI Certification Marking — Details available with the Indian Standards Institution.

EXPLANATORY NOTE

This standard was first published in 1969. The committee responsible for formulation of this standard decided to revise the same based upon experience gained over so many years and to keep it in line with other standards on clamps, which are also being revised, regarding material, roughness values, tolerance and rationalisation of sizes.

In the present revision, the figure under Table 1 has been modified to provide 'relief' to suit the present practice.

Adopted 26 March 1984
